>> Examples of Cross-examination

- Example 1: Case about prior academic writings that contradicted current evidence
- Example 2: Transcript of XXN on CV about prior Court experience, relation to qualifications and credibility
- Example 3: The opinion of the expert has to be a science
- Example 4: Transcript where the expert wasn't independent and ignored relevant information based on instructions from the client
- Example 5: Case where an expert's report was not accepted, because it was amended to favour his client and simply advocated for its client
- Example 6: Transcript where the expert's methodology was found to not have been the subject of any prior articles, books or standards
